Greetings Dear Pastor:

It is hard to believe that October is over already. So many different things have been happening. Starting with my daughter Rebekah who lives in Longview, Texas getting engaged. She will be getting married next July. Wow! Please pray for me, I have daughters getting married in April, May, and now July this next year. My heart is full and my pocket book will be empty! LOL!

We had a ladies meeting this month and had great attendance. We had 11 ladies in the meeting and 2 watching the nursery, so 13 adult ladies at the meeting. They play games, have food and my wife gives a devotion at the end. It is a great way to create unity among our ladies.

This next month we will be purchasing a Songthaew for our church. (Songthaew is a pick-up truck with 2 rows of seats in back.)

We were looking to get a van and then something changed my mind. I used my Toyota Fortuner to pick up ladies for the meeting and they trashed the inside of my vehicle. That changed my mind. LOL!

We are also losing our main translator December 1st. Please pray we can find a replacement soon!

Missionary Todd Painter

This is a picture of our Chinese interpreting table. My wife types everything I preaching into a translator and it comes up Chinese on the screen. Fortunately, my wife is a fast typist. We have three Chinese who attend faithful and speak only Chinese.

These girls got saved this past week. I was having Debbie speak to their grandfather for me and the little one started speaking to me in English. She knew a little English and wanted to practice. When Debbie started giving the Gospel the older sister rushed out of the house to listen. Both trusted Christ.

This Burmese lady lives across the street from our church. She just moved in about a month ago. She trusted Christ as her Saviour and just had a baby a few days later. We need to start a Burmese ministry and we even have a worker that speaks Burmese, but we lack the man power to expand. Now with losing our main translator it will be even more difficult to expand our outreach. Please pray!
